VISIONS & PHILOSOPHY

Our Vision is "to become a leading, renowned and preferred home interior brand in Singapore and in Asia", always forge ahead in the latest designs and sustainability trends, and finally provide great career opportunities for design professionals.

Our Design Capabilities coupled with our ISO Certified Quality Processes enables us to provide you a high level of assurance, peace of mind throughout your project from initial consultation, project delivery and project aftercare.

We follow 5 principles below to operate our company:

- **WELCOMING:** All enquiries are welcomed, we love challenges.
- **ENERGETIC:** Positive attitude and enthusiastic in serving customers.
- **CARE:** Weiken Dept. provides care.
- **ATTENTIVE:** We listen and pay attention to all details.
- **NURTURE:** We nurture talents and promote team spirit.

Our Design Philosophy is simple: "to merge the latest in design and sustainability trends so we can help you realise the space that epitomises your character and taste"!

MODERN LUXURY

Liz Ng

"Via the use of monochromatic colours, this project creates a consistent, well-defined theme throughout the entire unit. Dark themes are often associated with "small spaces" but this is actually misconceived. By strategically dramatizing, bold anchor points can be created and help connect spaces together.

For instance, the asymmetrical mirror at the end of the long hallway, the lighting leading across walkways, and the contrasting bathroom shower walls, are all design strategies to consider when owners are interested in the dark themes (rather than the usual monochromatic ones)."

COZY & TRANSITIONAL

Elaine Tan

"The homeowners want a warm and inviting space where they can relax, unwind and hang out with friends. One of the important techniques is to use mural paintings to enhance the plain wall at the dining area."

I believe homes are meant to be lived in and fully enjoyed, and a comfortable & creatively inspiring house will not only brim with good vibes but also positive energy!"

SCANDINAVIAN

Lucas Ngan

"Homeowners don't need to be too concerned with filling up every corner of a space with furnitures. Leaving spaces open and without labelling any particular functions can provide flexibility to convert the space into a lounge, study room, and even a pets corner as and when needed."

Instead of using an entire room as a study room, consider the possibility of having the dining table functioning as a study table too. The idea of flexibility and merging of functions can make an apartment feel larger than it actually is.

If you have pets, do not forget to incorporate their lifestyles into your new home too, this can often lead to the surprising and unique outcomes!"

MODERN CONTEMPORARY & LUXURY

Elaine Tan

"In this project, I mainly incorporated the dark tone for the overall concept with additional touch of using design tiles at kitchen backsplash to bring the Peranakan style."

About Us

De Roots Holding (formally known as Power Dekor) was established in 1995. We have grown into a global leader in sales and manufacturing of timber flooring products (Solid & Engineered timber floor). We are also a supplier of timber for construction, Wood Plastic Composite Decking (WPC), Luxury Vinyl Tiles (LVT), as well as our new range of High Stone Plastic Composite (HSPC) which is super-scratch resistant with GERMSAFE technology.

Equipped with more than 40 years of experience in the manufacturing and supplying of timber flooring products, we utilise our expertise and knowledge to advise on the specifications and requirements for our valued customers.

On top of that, we pride ourselves in providing value-added services i.e. Installation services, to provide an all-encompassing experience for our clients' timber flooring needs. Providing them with good before / after sales services. This is the reason why we have a strong support from over 500 builders, interior design & architectural firms together and counting.

MODERN CONTEMPORARY

Elaine Tan

"In this project, I managed to just create a simple space. To be more detailed, I used the concealing design to hide up the entrance to the homeowner son's room and also the common bathroom. At the same time, I used a designing feature wall to create an interesting & distinct space."

"It's great to utilize materials like: metal and glass because of their light-reflecting properties. Additionally, neutral colour palettes were widely used, along with textured fabric, together creating the modern contemporary look."

THE PERFECT FLOOR DESIGNED FOR YOUR INTERIOR

LURF® collections have perfectly natural look and feel. With their extra matt finish and life-like structure, its beautiful designs and soft surfaces makes it a joy to walk on, even barefooted.

Manufactured from 100% virgin material, LURF® floors contain a layer of super dense glass fibers to give the resilient floor additional dimensional stability. In addition we use the Uniclick Multifit click system, strongest in the market – the joints are perfect and milled deeper than others for greater joining strength.

LURF® floors have even greater natural plank variation, with each plank having its own incomparable wood structure.

Thanks to the StainGuard technology, stains don't stand a chance on LURF® flooring. The fully sealed "top layer ensures total protection from stains and dirts, making them very easy to keep clean.

Designed for flooring to withstand the rigours of active lifestyles, the Scratch Guard shield provides additional scratch protection that keeps your floors looking new.

YOUR SAFETY FIRST, ALWAYS.

With the health and safety of your family in mind, LURF® flooring is 100% phthalate-free and our flooring has been tested to have less than 20 μ g/m³ of volatile organic compounds (VOCs) meaning we have 50times less VOC emissions than current European standards.

Liz Ng

"Through the combination of Scandinavian functionality and Japanese minimalism, this project exudes simplicity with natural elements and a consistent colour palette across the entire apartment. The integration of indirect lighting within cabinetry also created the opportunity to visually connect the corridor and living room."

CONTEMPORARY

Lucas Ngan

"This project explores the marriage of spaces in both the living areas and also bedrooms. In the living area, the adjacent balcony acts as an extension of both the living and dining area. This effectively creates a large social space visually connected by similar finishings for both sides.

Anchorvale Lane

Contemporary

5-Room Condo

\$50,000

A wall between a common room and master bedroom was hacked to create a spacious walk in wardrobe and bedroom.

In new condominiums that are getting increasingly tight, it is critical to study the habits and future plans of clients in order to determine whether joining of rooms are suitable, and also look into how spaces can serve multiple functions. Home owners should carefully look into how long they intend to stay in the home they plan to renovate, this will give their designers and home owners a better idea of the renovation commitment they should make."

Lian Hin is the leading expert in multi-faceted surfaces like Granite, Marble, Quartz and Sintered Surface.

At Lian Hin, we keep it simple. We weave quality aesthetics with practical functionality to create products that last and delight, ranging from feature walls to worktops and vanities.

We deliver our promise through **CANDEO**, **ARCUS** and **VULCAN**.

The Natural Beauty

CANDEO by Lian Hin features our natural surface collections of Granite and Marble. These one-of-a-kind pieces are timeless and elegant, carefully sourced and precisely cut to fit any space.

CANDEO's Granite collection is a great choice for kitchen tops, vanity tops and countertops, owing to its heat and scratch-resistant qualities. Granite's natural hardness protects it from abrasion and is one of the most durable natural surfaces available.

CANDEO's Marble collection is popular for flooring and feature walls due to its classic and elegant look. Most value its aesthetic, strength and resistance to heat (cooling surface material). Compared with Granite and Quartz, Marble is slightly more delicate.

Be it Granite or Marble, a **CANDEO** surface is naturally beautiful and uniquely yours!

The Colourful Eternity

ARCUS by Lian Hin features our colourful range of engineered surfaces including Quartz and Terrazzo. Versatile, lasting and made to suit every space.

ARCUS' Quartz collection is a trendy choice for kitchen tops, vanity tops and countertops, due to its easy maintenance and durability. They come in a wide range of colours and designs – you will be spoilt for choice!

ARCUS' Classico series showcases our all-time favourites Quartz slabs. Treat yourself to a wide variety of plain slabs for a contemporary look or shimmery slabs for that extra something.

ARCUS' Eternal series is our premium range featuring Quartz slabs with natural stones look, raw feel, and sophisticated marble effects.

VULCAN

The New Strong

VULCAN by Lian Hin is a collection of large-format sintered surface slabs manufactured with sophisticated Italian machinery and technologies.

Sintered Surfaces are a composite of clays, feldspars, kaolin and quartz. The minerals are blended, compacted and subject to temperatures above 1,200 degree Celsius. These give the final material high chemical-, heat-, stain-, and UV resistance.

VULCAN is ideal for kitchens and bathrooms because of their resistance to household chemicals, high heat, and colour wear. The technologically innovative material is also easy to clean and maintain.

With great aesthetics and outstanding performance, **VULCAN** easily fulfils the demanding stature of any commercial and residential requisites.

MODERN MINIMALIST

YinJye

"As more homeowners move towards achieving minimal interiors and a clutter-free lifestyle, the question of how to neatly stow our belongings has become increasingly important. The main challenge of this project is how to cleverly do planning at the design stages and key to ensure cupboards and shelves throughout the home are suited to the homeowners' needs."

MODERN SOPHISTICATED LUXURY

YinJye & Eva

"In this design, we completely focused on the use of the curved lines (with the colour of bold white & grey) and the gold lines on the carpentry. As a result, the amazing balance between them helps create the both bold & soft elements, that truly delivered the Modern Luxury style.

Beyond that, this design also allows us to well blend the dark & light tones finish, that enhances the aesthetics & draws much more attention."

Marina One Residences

3-Room Condo

Contemporary

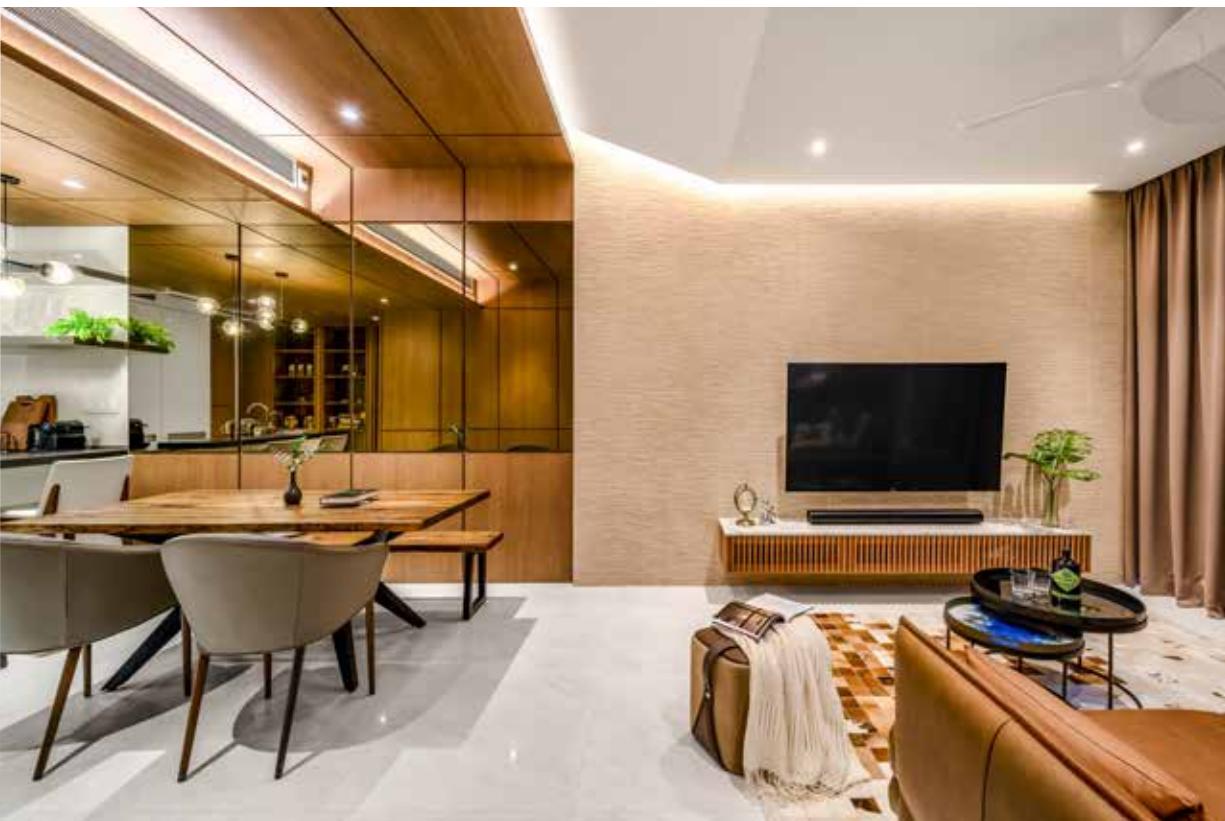

\$78,000

"This project focuses on refining the layout of a 2 Bedrooms & 1 Study unit. The existing study which is inwards facing and looking directly at the neighbour's kitchen provides little privacy and has been repurposed into a storeroom. This strategy frees up the Living Room and avoid the need to create storage cabinets which reduces the width of an already tight space.

By repurposing one of the bedrooms as a study, walls are replaced with glass and mirrored cabinetry, allowing the owners to enjoy a generous view towards the ocean within all common areas of the unit.

The Kitchen and Dining spaces are deeper within the unit with less natural lighting and had multiple ceiling heights. The uniform wooden finishes around the Dining and Kitchen serves to visually connect them into one single segment and provides the ability to integrate indirect lightings to an otherwise dark area."

MODERN SCANDINAVIAN

Jake Chew

"Living in a small home is pretty common for Singaporeans. In this project, I was requested to provide aesthetically pleasing storage compartments, design elements and functional features for homeowner's daily needs and usage. My tip is to emphasize on the space, structure and bring in linear elements into the interiors to elevate the ceiling height."

MID-CENTURY MODERN

YinJye

"Mid-century Modern Rustic design style is typically fun and bold, one timeless, forever-chic design direction that never seems to lose traction or covetability. The overall vibe of the interior uses natural materials like wood and pure colour (white, grey & black) to emphasize the materials used (textures & forms). I'm very confident that my clients really get satisfied with the outcome and stay relaxed living in this house."

 **Fernvale**

 **Mid-Century Modern**
 **\$70,000**

MODERN CONTEMPORARY

Eunice Lam

"In this project, I tried to create a cozy space by using herringbone vinyl flooring, dark feature walls with the warm wood tone. Additionally, with the purpose to add a little raw and playfulness inside this space, I opted for the terrazzo pattern tiles with concrete as base colour which is sprinkled with pop colours like yellow/red.

This compliments with the green hexagon backsplash tiling (and my customer really love it). In order to make the living room looks bigger, I applied a trick that uses huge full height tinted mirror."

SCANDINAVIAN

Joel Cheong

"This is my latest Scandinavian design for a family of 4 (including a child and helper). My client wanted a spacious (and cozy) living area, but still make sure it's user-friendly, functional, safe for kids & elderly people.

Colours used in the kitchen are the soft matte White, with a touch of wood counter finishing, herringbone backsplash to enhance the Nordic atmosphere. Particularly, with 5 meters in ceiling's height, I proposed the idea to create a loft for the study area (my homeowners are pretty on it)."

 **Seletaris Condo**

CONTEMPORARY

Vanessa Chua

"To incorporate the homeowners and my liking of furniture with gold trimming, we matched it up with some warm wooden textures to enhance the coziness of their livelihood.

Likewise, the stone-like finishes and mirrors were deliberately placed to further amplify its luxuriousness within. Fluted feature walls were also placed consistently in different constructions - series supply paneling, veneer fluted panels, laminate fluted panels."

Chuan Garden

Contemporary

Landed

\$70,000

CONTEMPORARY

Lucas Ngan

"In an environment with overwhelmingly bright lights and seemingly chaotic frontage, there was a challenge to create an entrance that can attract attention while maintaining the serenity of a facial spa. Instead of becoming brighter and sensuously louder than the adjacent units, the reverse was done. By tinting the shopfront and partially concealing some waiting areas behind fluted panels, the unit naturally stands out without being overwhelming."

"The interior possesses gold mirrored finishes that serves to contrast with the other neutral palette within the reception. A previously dimly lit and tight staircase provided an opportunity to create a fluted awards wall for improved lighting and also visually connects the stairway with the rest of the waiting area."
